Heated holding cabinet

SimpleHold

MODEL **HHC-900** *simpleHold*

Heated Holding Cabinet Model HHC-900 with *SimpleHold* controls, dual doors and 5 in. (127 mm) casters. Holds up to 13 full-size sheet pans.

General Information

The HHC-900 SimpleHold is a full size, high volume, mobile heated holding cabinet that incorporates simple digital controls, low-wattage heaters, and a set number of shelf runners. The *SimpleHold* version is part of Henny Penny's Quick Ship program and can be shipped within 24 hours of order processing.

Henny Penny heated holding cabinets are designed to hold a wide range of cooked foods at safe temperatures for long periods of time prior to serving.

Dual fans, ventilated side racks allow hot, moist air to circulate evenly throughout the cabinet and keep practically any menu items hot and tasty until serving. And that translates into higher food quality and less waste throughout the day.

Henny Penny holding cabinets also improve your equipment and labor utilization. With longer holding periods, operators can cook in quantity before peak periods and stock heated display cases directly from the holding cabinet.

The HHC-900 will lower your energy bill, too. The ENERGY STAR® Mark is awarded only to the most energy efficient appliances.

Additional standard features such as stainless steel construction, fully insulated doors and cabinet walls, and self-closing doors help protect food quality, reduce waste and provide for more efficient workflow.

SimpleHold control features simple temperature set points and display.

Standard Features

- Durable, high-quality stainless steel construction, interior and exterior.
- *SimpleHold* control features simple to use electronic touch pad control with LED display for temperature setpoint changes.
- Lower wattage heaters (1500W) enable unit to be sold in both the USA and Canada.
- Removable air ducts for easy cleaning.
- Dual heavy-duty blower motors.
- Ventilated side racks. Large stainless steel water pan.
- Partial pan removal for convenient loading and unloading.
- Fully insulated doors, sidewalls and control module.
- Full perimeter door gasket.
- Self-closing, lift-off doors stay open past 90 degrees.
- Magnetic door latch and heavy-duty plated hinges.
- Solid stainless steel cabinet back.
- Stainless steel doors with right hand hinges.
- Holds up to 13 full-size sheet pans.
